

## Relationship - 문제점 1문장

It is of importance to consider whether ~~ or not. This is an intriguing question since opinions regarding this issue can differ depending on each individual's perspective. As far as I **am** concerned, I'm for/against the given statement for several reasons.

First of all, ~~ enables to people to improve the relationship. This is mainly because since people these days has become ( ) indifferent to others, it is highly required for individuals to spend more time together. When ~, people could ( ) obtain opportunity to understand each other and even spark a sincere conversation later. ~ leads not only to share the moment, but also to foster crucial social skills.

My brother is the epitome of this. When he was in elementary school, he could neither make friends nor mingle with them because of his introverted personality. He used to feel lonely and stay at home. Then, one day, he decided to join in ~. At first, he had difficulty talking to friends, but thanks to activities, he got used to getting along with them. He ( ) with a number of friends and now he knows the importance of interpersonal social skills leading him to be an extrovert.

Moreover, Recent research ( ) by DS, one of the prestigious research centers in Korea, has confirmed this. According to the research, the ( ) were highly likely to ~er than those who didn't. The researcher who analyzed this stated that the former ones outcompeted the later **ones** in ~. ( ), ~~ ( ) ~.

Taking everything into account, I strongly agree **that** ~~ since ( ) (2분40초)

## Job – 문제점 2문장

It is of importance to consider whether ~~ or not. This is an intriguing question since opinions regarding this issue can differ depending on each individual's perspective. As far as I am concerned, I'm for/against the given statement because of several reasons.

First of all, ~ can (     ) (     ) to get a decent job. This is because it is extremely difficult to get a good job without (     ). Since there are thousands of rivals in a competitive job market, ~~ is highly required for individuals to succeed. Through ~~ , people can (     ) (     ) for work.

My sister whose major was physics is the epitome of this. When she was in ~~the~~ university, she took a literature class even if it was not required. From the course, she learned how to express her opinions and back them up with evidence. She didn't realize how valuable the skills were until after she graduated (     ), during ~~the~~ job interviews. Thanks to the skills (     ) in the class, she was able to (     ) and (     ). ~~ (     ).

Furthermore, recent research done by DS, one of the most prestigious research centers in South Korea, has confirmed this. According to the research, ~~ was highly likely (     ) than those who didn't. The researchers who analyzed the study (     ) that the former ones outcompeted than the later ones (     ). (     ) ~~~ play a significant role in ~~.

Taking everything into account, I strongly agree with ~~ (     ) since ~~.

## Convenience

It is of importance to consider whether ~~ is good or not. This is an intriguing question since opinions regarding this issue can differ depending on each individual's perspective. As far as I am concerned, I'm for/ against the given statement for several reasons.

First of all, the advancement of ~~ contributes to convenience. This is mainly because people (     ) access whatever materials, whenever they want, and wherever they are. This has replaced the traditional method, and thanks to the improvement, people don't have to waste their precious time. (     ) (     ) become able to deal with (     ) (     ) and keep up with the rapidly changing world.

My sister is epitome of this. When she was in high school, (     ) (     ). So, I recommended her to take an online class (     ) (     ), (     ) (     ), she could study anywhere, anytime. (     ) concentrate more (     ) and get accepted into Harvard University. If she **had** used traditional methods of learning, she **would not** enter the university. This indicates that the improvement(progress) of ~ technology (     ) convenience.

Furthermore, recent research done by DS, one of the most prestigious research centers in South Korea, has confirmed this. According to the research, ((     ) (     ) (     ) (비교X, 설문조사) The researchers who analyzed this noted that (     ) (     ) (     ) the improvement of ~~ play significant role in improving convenience.

Taking everything into account, I strongly agree with ~~ since ~~

## Stress -문제점 2문장

It is of importance to consider whether it is ~ or not. This is an intriguing question because the opinions regarding this issue can differ from each individual's perspective. As far as I'm concerned, I'm for/against the given state for several reasons.

First of all, ~~ plays a significant role in relieving stress. This is because since society has become highly competitive, ( ) ( ) ( ) This made them ( ) ( ), so they need pleasant distraction ( ) ( ). After ~, they can improve their quality of life in order to get back to their work.

My sister is epitome of this. When she was in university, she ( ) daily routine and high pressure from her assignment. She ( ) depressed and exhausted both emotionally and physically. Then, one day, she decided to join in climbing club not only to get away from her work and ( ). While engaging in the activities, she ( ) forget her stressful matters and she learned importance of managing the stress. She ( ) ( ) and ( ) to achieve goals with her positive mental state.

Furthermore, the recent research conducted by DS, one of the prestigious research centers in South Korea, has confirmed this. According to research, the one who ( ) ( ) ( ) The researchers who analyzed this study noted that ( ) ( ) ( ). ( ), ~~ ( ) ( ).

( ) ( ), I strongly agree that ~ are better ~ since ~ contributes to~.
